

TECHNICAL CAPABILITY SHEET 2026

Production capabilities at a glance

Engineering - Fabrication - Finishing - International Installation

~100

Operational workforce

2,000 m2

Current production

+500 m2

Expansion

6 kW

CNC laser

MATERIALS & PROCESSES

Stainless steel 304 / 316

Carbon steel Fabrication & structures

Aluminium Fabrication & welding

Welding TIG / MIG / MAG

Finishing Grinding / polishing

Surface prep. Sandblasting

Coating Liquid / powder

PRODUCTION EQUIPMENT

CNC laser 6 kW

Laser table 3000 x 1500 mm

Sheet bending Up to 3000 mm

Tube processing Cut / bend / roll

Sheet rolling 1000 x 4 mm

Guillotine AMADA GPX 630

Welding systems Fronius / Kemppi / ESAB

PROJECT DELIVERY

- Engineering
- Production
- Finishing
- Preassembly
- Packing
- International Transport
- On-board Installation
